

Dear Financial Aid Applicant,

This packet contains all the materials necessary to complete the financial aid application process for the 2022-2023 academic school year. Bridges Seattle is committed to making a 2e education possible for all 2e students. Funds are limited and it is very important that all materials are submitted in a timely manner.

Enclosed you will find the Parents' Financial Statement Workbook and Instruction Booklet from School & Student Services by NAIS (to help complete the PFS online). This agency will give us comparative data on the expected parental contribution. This is the same format utilized for colleges, so each family filling out the form will be given information which may be helpful in future college planning.

You must complete and submit your SSS by NAIS application online at <https://sssandtadsfa.force.com/familyportal/FamilyLogin?startURL=@Ffamilyportal>.  
**Our SSS school code is 200514.**

The **Financial Aid Form** for SSS **must** be completed and submitted to the National Financial Aid Agency immediately after receipt of acceptance to Bridges Seattle.

Also enclosed you will find our in-house application materials. **These forms must be returned along with the 2020 and/or 2021 Tax Returns by March 1, 2022.** If there is any special information which you feel will help the financial aid Committee better understand your situation, please enclose a letter describing those circumstances.

Families who complete their SSS application, Bridges in-house application form, and provide their 2020 and/or 2021 tax returns by March 1 **will hear from the financial aid committee by March 10.**

You may submit your 2022-2023 enrollment contract with the notation "*pending financial aid*". You will need to submit your deposit within ten days of notification by BRIDGES SEATTLE of its financial aid determination to lock in the tuition and confirm your student's enrollment.

Sincerely,  
Shane Brennan  
Bridges Academy Seattle
